

A specialized setting for complex needs

PHYSICIAN'S GUIDE TO LONG-TERM ACUTE CARE SERVICES

Experienced professional staff

An interdisciplinary team of professionals meets regularly to formulate, review and update each patient's individualized plan of care. We include the family in the plan of care to meet the goals and expectations of the patient and the family. We also provide a comprehensive discharge plan to ensure care is delivered appropriately after the patient leaves our hospital. Our staff is comprised of:

- Board-certified physicians
- ACLS-certified registered nurses
- Licensed practical nurses
- Certified nursing assistants
- ACLS-certified respiratory therapists
- Physical therapists, occupational therapists, speech therapists
- Registered/licensed dietitians-certified nutrition support
- Registered health information administrators
- Case managers/social workers
- 24/7 pharmacy services with continual review of physician orders to improve patient safety
- Clinical programs including pharmacokinetic and renal dosing programs
- Standard drug library and "smart pump" technology to decrease medication errors

Types of services we provide

- Telemetry/cardiac monitoring
- Respiratory therapy
- Ventilator management and weaning
- Antibiotic therapy
- Wound care, including the use of negative pressure wound therapy
- Hyperbarics
- Nutritional assessment and support
- Case management
- Discharge planning
- Patient education
- Therapy services (physical therapy, occupational therapy, speech therapy)

Types of medical issues we treat

We treat a wide range of complex medical illnesses including the following:

- Cardiovascular disorders
- Infectious diseases
- Respiratory conditions
- Neuromuscular diseases
- Neurological disorders
- Hematological disorders
- Renal disease
- Diabetes management
- Post-surgical recovery

Admission process

Patients can be referred to our hospital by a variety of sources, including physicians, social workers, case managers, nursing homes, family, caregivers or the patients themselves. Qualified staff will perform a pre-screening evaluation and on-site assessments may be performed. We accept Medicare, Medicaid and most private insurances. Pre-admission team conferences can be arranged to discuss patient and family goals. If necessary, transportation will be arranged by the hospital.

To refer a patient to our long-term acute care hospital, visit us at LHCgroup.com.

Not all services are available at all locations.
